

## Connectivity Solutions Guide

# Liberty Technology

Managed IT | Hardware Sales & Support | Cloud Services

## Need help with Connectivity for Voice, Cloud, or Internet?

Rely on us to connect you to the Cloud or the outside world. We understand it all, so you don't have to. We will complete an analysis of your current carrier to determine the following:

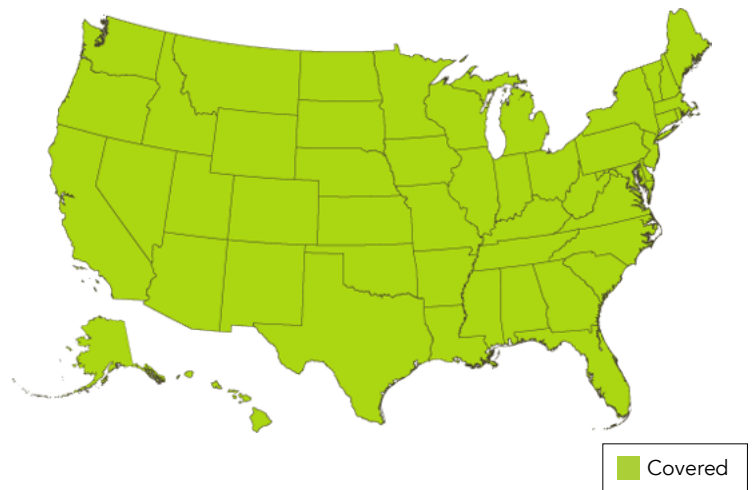

- Are you paying too much?
- Do you need additional bandwidth?
- What improvements would you benefit from?
- Is your speed sufficient?

Following this assessment, Liberty Technology will determine the carrier service and strategy that best suits your needs. This may include cloud, partial cloud or hosting on-site. We offer dual Internet service provider strategies that will provide redundancy to keep your business unaffected by unforeseen downtime.

Liberty can also help manage connectivity for office moves and cutover. Moving office space or deciding on a new carrier? We can help.

## We have you covered!

Offering a complete solution that provides reliability, optimal performance, scalability, and security features, proactively monitored around the clock. You gain capable connectivity throughout all the United States.

Working with Liberty Technology gives you high speed dedicated internet access with the flexibility you need to stay connected to customers, business partners and employees. You will be able to conduct business confidently while offering convenience, responsiveness and options for your rapidly growing internet use. We can get you connected to a multitude of carriers. No matter where you are.

Here are just a few carriers that we have worked with:
