

Infrastructure Solutions Guide

Liberty Technology

Managed IT | Hardware Sales & Support | Cloud Services

Let us solve your mobility strategy.

Don't wait to develop your mobile strategy. Whether you have existing infrastructure, are strictly using the cloud or if you're currently using a hybrid of both, you must have devices to consume these services. While endpoints aren't going away, they are changing. Liberty Technology offers expert advice on the strategy, sourcing, and management of your devices.

Strategy Procurement Delivery Management

Strategy

- Bring Your Own Device (BYOD)
- Business fleet
- Site surveys

Delivery

- Professional setup

Procurement

- Special pricing
- Warranty management

Management

- Mobile Device Management (MDM)
- Continued support

Your mobile strategy includes everything from cell phones to tablets to even your wi-fi connection. Liberty Technology can support your technology asset management, whether you need help with a BYOD (Bring Your Own Device) plan, business fleet plan or site surveys. We manage the purchase of company-owned devices (including phones, laptops, and tablets) for companies that need wireless coverage for all of their devices. Liberty Technology provides consultation on how many access points are needed, guest access requirements, as well as direction on what device will work best

Liberty Technology offers special discounts/cost advantages for larger scale projects and handles sending warranties to ensure coverage. We provide unified management of mobile devices, Macs and PCs. Following set-up, we will come out to check for any network or device issues and provide continued support as needed.
